The cure for blood cancer looks exactly like you.

Join the Be The Match Registry®.
Marrow donors in your community are urgently needed to save the lives of patients with diseases like leukemia, lymphoma or sickle cell anemia. Patients are most likely to match someone who shares their ethnic background.

Kyle Markes is an **11** year old boy of Jamaican descent from Stamford, CT. He was diagnosed with **Acute Lymphoblastic Leukemia**. After being in remission for a short time his family learned that his cancer had aggressively returned. Now, his only hope to cancel this disease is a bone marrow transplant.

Every day, thousands of children and adults are diagnosed with leukemia or other life-threatening diseases that require a bone marrow transplant as a cure.

We all have the power to heal, the power to help.

Take the first step to help patients like Kyle. Join the registry.

Marrow Donor Registry Drive, Ages 18 to 44

Date: **September 27th, 2013**

Time: **10:00 a.m. to 3:00 p.m.**
