

TLBU-IHS

PRELIMINARY INTENSIVE PROGRAM

The Preliminary Intensive Program is designed to prepare students for the TLBU International High School. During this three-week summer session, students will take part in advanced 9th grade classes that will help them begin their academics at TLBU International high school with confidence, offer them a solid foundation for the SAT, and ultimately be admitted to prestigious universities. Lessons will focus on English, Mathematics, Science, and the Social Sciences.

Our experienced teachers and TLBU Science Institute Scholars (Ph.D. from University of Maryland) will concentrate on global knowledge, critical thinking, writing, advanced mathematics and scientific process skills. The Preliminary Intensive Program will also offer daily Taekwondo classes to strengthen each student's physical fitness and personal confidence.
